

Media Advisory

Aldridge Gardens Now Closed/Community Resource Page

March 18, 2020-#2 (6:00 pm) As of 4:00 this afternoon, Wednesday, March 18, 2020, Aldridge Gardens has shut down completely. The grounds are now closed and all programs have been postponed until April 30th or further notice.

The City of Hoover has created a community resource page for its citizens to find information pertaining to a wide range of information including City notifications, information for businesses and vital health info. Residents can go to <http://hooveralabama.gov/> and click on the red link titled, "CLICK FOR MORE INFO: BUSINESSES AND INDIVIDUALS". Or on their mobile devices, they can go to: <http://www.hooveral.org/CivicAlerts.aspx?AID=805>

Also, we ask that all media outlets please make the public aware that the City is offering Hoover-specific text message alerts regarding COVID-19. To receive those messages, residents should text the words **HOOVERCOVID to 888777**. They will then receive two brief messages in response letting them know they have successfully signed up for the alerts. Below are other services the City is offering at this time.
